

EXPANDED

QUICK DELIVERY

INDUSTRIAL CUTTERHEADS

Expanded Offering

Wisconsin Knife Works has just expanded their offering of Quick Delivery cutterheads to the woodworking industry. Customers can easily order and take delivery of thousands of cutterhead styles in a fraction of the time it takes other cutterhead manufacturers. The Quick Delivery Program has reduced the delivery time on these cutterheads from weeks to days.

Quick Delivery

Long delivery times for cutterheads in the woodworking industry lead Wisconsin Knife Works to evaluate the most popular styles of cutterheads used in the industry and develop a proprietary manufacturing process that would provide WKW the ability to ship cutterheads in 7-10 working days. Wood product manufacturers are able to order one to many cutterheads from thousands of various cutterhead combinations to fit their specific application. Plus, they'll receive those heads within days.

Head styles include Hydro-Loc, Quick-Loc™, Welded Sleeve Construction, Straight Bore, Axial Constant and Shaper.

Wisconsin Knife Works, Inc.

EXPANDED Quick Delivery QUALITY CUTTERHEADS

STRAIGHT BORE

Premium Steel Body precision machined for concentricity

Bore Sizes	1-1/4", 35mm, 1-1/2", 40mm, 1-13/16", 50mm, 2-1/8"
